Policy

[Revised 02/01/2015](#)

Children enrolled in KidsCare are charged a monthly premium based on the Income Group's total income and the number of children enrolled in KidsCare.

NOTE Native Americans and Alaska Natives who prove their tribal enrollment are not charged a premium.

1) Proof of Tribal Enrollment

Native Americans and Alaska Natives who qualify for FTW must provide proof of tribal enrollment to be exempt from monthly premium charges. Proof of enrollment or tribal membership includes:

- Certificate of Degree if Indian Blood;
- Tribal ID;
- Tribal Census Record; and
- Other document provided by the tribe stating that the person is an enrolled member of the tribe.

If a person claiming to be a Native American or Alaska Native does not provide proof of tribal enrollment, the premium exemption does not apply and a premium may be charged.

NOTE Eligibility is not denied because there is no proof of tribal enrollment.

If a person is approved with a premium and later provides proof of tribal enrollment, the customer's ethnicity is changed to "Native American" so that the person will not have to pay a premium beginning the month after the month the change is made to allow the premium exemption beginning with the next prospective month.

3) Premium for Cases with Multiple Income Groups

A case may consist of multiple income groups. The monthly premium amount for a child is based on the income group with the highest income level and the number of eligible children in income groups. This means that instead of having a separate premium for each income group, the case will only be charged one premium that covers everyone in that case.
